Sir:

Attorney for applicant wishes to make of record the two documents cited in the International Search Report, mailed July 11, 2005. The documents, GB 2,406,051 A (Kirk) and an article on push pin magnets, downloaded from the Internet, are listed on the attached PTO Form 1449, or equivalent. Copies of the two documents are attached to the form.

The International Search Report further indicates that both documents fall within the purview of categories P and A. Category A includes documents that define the general state of the art, but which are not considered to be of particular relevance. Category P includes documents published prior to the international filing date (April 1, 2005), but later than the claimed priority date (April 2, 2004).

Respectfully submitted,
